

TiVo®

We sell and install the TiVo 80-hour Dual Tuner box. This unit is an ideal match for our cable system, whether you are using a cable box or not. This unit can record two channels at the same time and will work with any TV, no matter how new or old.

TiVo is easy to set up to record your favorite programs with its award-winning program guide. It even allows you to record a whole season with its Season Pass feature. When you have time to watch TV, your choices will no longer be limited to what is playing right now, but you will be able to pick from the long list of shows that your TiVo has recorded. TiVo has all the features that you demand in a DVR: Instant replay, slow-motion, and easy skipping backward or forward.

If your TiVo is on your wired or wireless network, you can even use it to watch slide shows or listen to music residing on your computer. Use the new TiVo-to-Go feature to save a program on your laptop to view when you are away from home, or use multi-room viewing if you have two TiVos.

TiVo can be set up with Kid Zone, making it easy to limit child access to programming approved by your choice of six family-friendly organizations.

Our \$299 TiVo price includes free professional installation (\$279 if used with a cable box). Check our web site or Channel 23 for current TiVo factory rebates.

TiVo service required (presently \$12.95 per month with a one year commitment; pre-paid discounts available). Either a telephone or Internet connection is required. This unit cannot process HDTV signals.

More Information

Visit **Channel 23** for Lucas Valley Cable news, call 259-5856, or go to www.lucasvalley.net.

Internet Access

Lucas Valley Cable got its start by providing high-speed Internet service. We have been adding capacity ever since and have recently increased all speed caps without raising rates. A 2006 upgrade to an optical fiber connection to the Internet has enabled us to drop our prices for 2007.

All plans include professional installation (\$49 flat fee for new installations). Network wiring is additional.

Wired plans

Includes free wired router for Plus plan or better.

Plan Name	Monthly Rate		Speed Caps (down/upstream)
	Regular	With TV*	
Legacy	\$19.99	\$13.99	474/256 Kbps
Basic	\$24.99	\$18.99	1024/512 Kbps
†Plus	\$33.99	\$24.99	1836/768 Kbps
†Premium	\$42.99	\$34.99	3080/1024 Kbps
†Professional	\$54.99	\$39.99	5120/1540 Kbps

*Special TV rate applies for Expanded TV or better.

†These plans include a fixed IP address, baseband privacy on the cable, and may be activated for Internet telephone service (VoIP and voice/video chat services) if desired.

Wireless Plans

Includes free wireless router.

Any of the above plans may be ordered with wireless for an additional \$4 per month. This fee is required to offset the high cost of maintaining wireless systems. Our wireless installation includes a site survey to choose a channel with the least interference, set up of wired-equivalent privacy (WEP encryption), on-site support, and the replacement of failed components for the life of the plan. For best results, we recommend a wired router and wireless access point; these components may be ordered in lieu of the wireless router for a \$100 charge (plus tax).

E-Mail and Web Sites

200 MB of server space for each account. Custom domain names and free web site hosting are also available.

LUCAS VALLEY CABLE

Service for 2007

Broadband Internet Plans

- High speed, always on
- Free e-mail and web hosting
- **New, Lower Prices!**
- Wired or Wireless Internet

WWW.LUCASVALLEY.NET

Expanded TV

Channels 2–90 plus 98:

- 20 local channels
- 63 cable channels
- 9 local HDTV channels (plus 9 local DTV channels)*
- 37 commercial-free music channels**
- Qualifies for reduced Internet rates.

*ATSC tuner *capable of receiving cable channels* required. See our website for recommended TV or external tuner brands.

**Some HDTV sets receive music channels. Otherwise, cable box is required.

Visit www.lucasvalley.net for current lineup.

Only \$32.99 per month.

Digital Variety Pak*

Channels 200-296 in digital quality:

- 4 Discovery channels
- 9 sports channels
- 5 movie channels
- 6 music video channels
- 4 children channels
- Science channel
- National Geographic channel
- Biography
- Bloomberg
- 15 other cable channels

*A cable box and Expanded TV are required to receive the Variety Pak channels. Works with any TV. These channels are not high-definition.

Visit www.lucasvalley.net for current lineup.

Only \$11.99 per month.

Premium Channels

Dozens of digital quality premium channels are available by subscription.

- **HBO Digital Pak.*** 10 digital quality HBO screens for **\$14.99/month**.
- **SHO/TMC Digital Pak.*** 15 digital screens for **\$14.99/month**. Also includes the FLIX movie channel.
- **STARZ!/Encore Pak.*** 15 screens for **\$15.99/month**.
- **Cinemax Pak.*** 6 screens for **\$14.99/month**.
- **Premium Digital Max Pak.*** All of the paks above *plus the Digital Variety Pak* for **\$59.99/month**—a \$12.96/mo saving.

*All digital paks require cable box and Expanded TV. Will work on any TV. These channels are not high definition.

Analog Premiums. Some of the above screens are available in analog form on Channels 14, 16, 18, and 20. They will work with any cable-ready TV and do not require a cable box. *However, the analog descrambling method used results in a substantial loss of detail.*

Rates:

- | | |
|-----------------------|---------------|
| • HBO West | \$16.99/month |
| • SHO West | \$13.99/month |
| • TMC West | \$13.99/month |
| • SHO West + TMC West | \$17.99/month |
| • STARZ West | \$10.99/mo |

Pay Per View. Fifteen channels available. Movies are typically **\$3.99** per view. Compare with renting movies — no rewinding, no return, no late charges! Expanded TV, telephone connection, and cable box required.

Cable Boxes

You will need one Motorola DSR470 cable box for each TV that accesses your selection of digital paks (see columns at left). These units feature:

- An interactive program guide that includes all channels, including analog channels.
- Detailed information on each program in the guide.
- Ability to browse the content of other channels without leaving the currently selected program.
- Parental controls to limit child access.
- Ability to set favorite channels for up to four individuals.
- Works with TiVo.®

Used cable boxes are available for purchase (\$229 plus tax) or rent (\$9/month). Subject to availability. There is no installation charge, and we will provide any necessary cables. All units are fully warranted.

The same selection of digital paks applies to all cable boxes in a household. Cable boxes work with any TV (Channel 3/4 or composite video outputs available).

TV sets in a household lacking a cable box cannot receive digital paks, but will receive all Expanded TV channels.

The DSR470 cable box includes a remote that can control both the cable box itself and nearly any TV.

Note: These set-top boxes are only for Digital Paks. They will not receive local DTV/HDTV signals. Visit our web site or call 259-5856 for details.
